SUBJECT: MATHEMATICS

Class: VII

Sr. No.	Month	No. of Working Days	No. & Name of the Chapter / Lesson	Content / Sub Topics	Activities
1	April	22	Ch. No. - 01 - Integers Ch. No. 02 - Fractions and Decimals	Integers definition, Operation of Integers, Rules for operations Properties of addition and subtraction of integers, multiplication of integers, division of integers. Decimals Equivalent fractions, multiplication and division of fraction, Decimal numbers and multiplication and division of decimal no.	To make a 3x3 magic square of integers using 9 no. WORKSHEETS :- *Basic operations of Integers, Fractions and decimals (lower level learning) *Practice questions *Competency based questions (For both chapters)
2.	June	23	Ch.No. 08 Rational Numbers Ch. No. 5 Lines and Angles	Positive and negative rational no. Number line, reducing into standard form, rational no. between two rational no., operation of rational numbers. Types of angles, pairs of lines, angles made by intersecting lines, transversal of parallel lines and angles made by them.	WORKSHEETS :- *Basic operations of Rational numbers, (lower level learning) *Practice questions *Competency based questions (For both chapters). To verify experimentally the angles formed by parallel lines and transversal by tracing, cut and paste method
3.	July	26	Ch. No. 09 - Perimeter and Area Ch. No. 13 Visualising Solid Shapes	Area of triangle, parallelogram, circle, application of knowledge in daily life Plane figures and solid shapes, drawing of solid shapes on isometric sheet, viewing different sections of a solid	To make a 3x3 magic square of integers using 9 no. WORKSHEETS :- *Basic operations of Integers, Fractions and decimals (lower level learning) *Practice questions *Competency based questions (For both chapters)
4.	August	18	Ch. No. 11: Exponents and Powers	Exponents, laws of exponents, decimal number system, expressing large numbers in the standard form.	WORKSHEETS :- *Basic formula sheet, direct questions (lower level learning) *Practice questions (HOTS)\ *Competency based questions

5.	September	25	Ch. No. 14 Simple Equations and Revision	Setting up of an equation, solving an equation, application of simple equations in practical situations	WORKSHEETS :- *Basic direct questions (lower level learning) *Practice questions (HOTS) *Competency based questions
6.	October	12	Ch. No. 10 : Algebraic Expression	Forming an expression, tree diagram coefficient and factors of a term, like and unlike terms, finding value of an expression	WORKSHEETS :- *Basic direct questions (lower level learning) *Practice questions (HOTS) *Competency based questions
7.	November	22	Ch. No. 06 The Triangle and it's properties	Median and altitude of a triangle, exterior angle property, angle sum property, Sum of length of two sides of a triangle, Pythagoras property.	WORKSHEETS :- *Basic direct questions (lower level learning) *Practice questions (HOTS) *Competency based questions To verify angle sum property of the Triangle. To verify exterior angle property of Triangle.
8.	December	25	Ch.No. 07 : Comparing quantities	Percentage, ratios to percent, decimal to percentage increase or decrease as percent, profit or loss as application of percentage, simple interest.	WORKSHEETS :- *Basic formula sheet, direct questions (lower level learning) *Practice questions (HOTS) *Competency based questions
9.	January-February	17+23	Ch.No. 03 : Data Handling Ch.No. 12 : Symmetry	Collecting organizing data, arithmetic mean, mode, median and range of data. Double bar graph. Lines of symmetry for regular polygons, Rotational symmetry	WORKSHEETS :- *Basic direct questions (lower level learning) *Practice questions (HOTS) *Competency based questions Making bar graph on data collected To create symmetrical designs.
